About Hamdan Bin Mohammed e-University (HBMeU)

Hamdan Bin Mohammed e-University (HBMeU) was officially launched on February 1, 2009 by His Highness Shaikh Hamdan Bin Mohammed, the Crown Prince of Dubai. The university traces its origin to the e-TQM College that started seven years ago as the only institution with an e-learning platform in the UAE. The HBMeU is a pioneer in e-learning with a mission to reshape education by providing a model of lifelong learning, including open access to short courses, executive development programs, certificate and diploma courses leading to accredited undergraduate/graduate degree programs.

The HBMeU specializes in excellence/quality management and has a wide range of programs to meet the needs of learners in all sectors of the economy, including business, education, e-learning, healthcare and environment. HBMeU provides learning opportunities for all through the principle of click-to-learn as well as enjoys international credibility, recognition and affiliation. Its programs are not only demand driven, but are customized to meet the growing needs of businesses in the UAE and indeed elsewhere in the Arab world in the 21st century. HBMeU is passionate about upholding excellence in all its programs portfolios and has attracted internationally recognized faculty and other professionals that have already started contributing towards human capital development in the UAE.

The Continuing Education Department

The Continuing Education Department (CED) is the Hamdan Bin Mohammed e-University's arm for adult professional development. It offers credit and non-credit short courses and organizes events covering areas such as business and total quality management, healthcare and environmental studies, and e-Learning; as well as creating opportunities for internationally recognized certificates and diploma programs. The CED also contributes to organizational excellence through its advisory and consultancy services for clients in the UAE in particular and the Arab world at large. The activities of the department are an integral part of the HBMeU lifelong learning model which creates pathways linking individual's competency enhancement to academic success.

Centre of Excellence in Health & Environment

CeHE is the Center of Excellence in Healthcare and Environment; a subsidiary of the Continuing Education Department at the Hamdan Bin Mohammed eUniversity, Dubai. CeHE has been established with the purpose of promoting excellence in healthcare and environmental management practices through providing focused professional development and competency building programs and consulting services as well as conducting research in the Arab world.

The International Hospital Federation

The International Hospital Federation (IHF) founded in 1947, is an international non-governmental organization, supported by members from over 100 countries. As the worldwide body for hospitals and healthcare organizations, it develops and maintains a spirit of cooperation and communication among them, with the primary goal of improving patient safety and of promoting health in underserved communities.

Health Management

Health Management, member of INDEX Holding is a healthcare consultancy firm committed to provide professional and reliable expertise to hospitals and healthcare institutions in Dubai, United Arab Emirates, the Gulf Countries, the Middle East and the North Africa Region.

Certificate Overview

The program mission is "to provide senior hospital and health services managers who are seeking to strengthen their positions as leaders in the healthcare industry with the opportunity of a high quality academic and educational program in healthcare management".

Delivery Approach

The Senior Hospital and Health Services Manager Certificate follows a blended learning model, where self paced learning, face to face learning and online collaboration methods are used to accommodate the working learners.

Curriculum

The Senior Hospital and Health Services Manager Certificate consists of four main courses:

- Healthcare System
- Healthcare Management
- Operations Management in Healthcare
- Introduction to Quality and International Accreditation in Healthcare.
